

PHOTOGRAPHY BASICS

with Matilde Damele

Basics of photography and practice

7 classes

Theory classes 1 hour each **ROOM 021 BLD E FAO**

Practice 1&1/2 hours

Free Introductory meeting: **February 4**

Class 1	February 18	The origins of photography & Aperture @ ROOM 021 Bld E FAO
Class 2	February 25	Practice
Class 3	March 4	Shutter speed& Iso @ ROOM 021 Bld E FAO
Class 4	March 11	Practice
Class 5	March 18	Exposure and Focus @ ROOM 021 Bld E FAO
Class 6	March 25	Practice
Class 7	April 1	Composition and Digital Formats @ ROOM 021 Bld E FAO

During the 8 classes course we go through the key elements of technical photography; from Aperture to Shutter speed, Exposure, Composition, Digital Formats
We also practice outside on the weekend what we learnt in class and we review the images together the every other week.

The participants will need to have a camera that allows them to use its manual functions.
The participants will also bring a pen/flash drive to class to download and discuss the photos taken. The images can also be sent via we transfer.
A power point with the lesson material will be sent weekly to all participants

By the end of the course the students will have knowledge of:

- How to expose the camera correctly
- The different use of lenses
- Good composition and sequencing
- Creative exposure and shutter speed
